# EDINBORO UNIVERSITY IN MEADVILLE

## AT A GLANCE

---

- ❖ A 20,000-square-foot state-of-the-art educational facility combines the latest technology and classroom design within the historical renovation of the 1800s Bessemer Railroad Complex.
- ❖ Smart classroom technology and computer labs
- ❖ Video-conferencing technology allows Internet Protocol and Integrated Service Digital Network Communication to virtually anywhere in the world. The facility uses multiple cameras, push-to-talk microphones, and 60-inch plasma screens.
- ❖ High-speed, 6mb ethernet transport connecting Meadville to the main campus in Edinboro and the Porreco Center in Erie.
- ❖ State and federal recognized collaboration offers the resources of an accredited university, an accredited technical school., and numerous state and regional employment and economic development agencies in a multiple building complex.
- ❖ A partnership with Precision Manufacturing Institute (PMI) transfers technical credits into Edinboro University's associate degree program in manufacturing engineering technology.
- ❖ The Center currently offers courses for certification, associate, bachelor's and master's degree programs.
- ❖ A bachelor's degree program in technology is being designed to accommodate the needs of regional manufacturing.
- ❖ Plans are in place for future programs to meet the needs of the community and the region.
- ❖ Local businesses and agencies will be able to use the facilities or take advantage of specialized training to meet their specific needs.
